“ Dr Seal was wonderful. He listened intently to his patients and monitored their illnesses, adjusting when necessary, A wonderful memory ---He played golf with the Henry County Hospital in a charity event and our team won some money with from a raffle ticket he bought. He gave myself and the 2 others golfers the money. He said the winnings were not enough to pay for all the lessons he needed in golf, so he wanted us to give the money to us He would share the memories of the wonderful fun he had with us as we tried to correct his reverse pivot golf swing. Thanks Michelle,
Yes he would take the time with each patient.
He definitely believed that helping his patients to get better was his main goal and he treated everyone as an individual and gave them the best care he could. He treated patience with lots of compassion and his expertise.
